

Legacy Screening Library

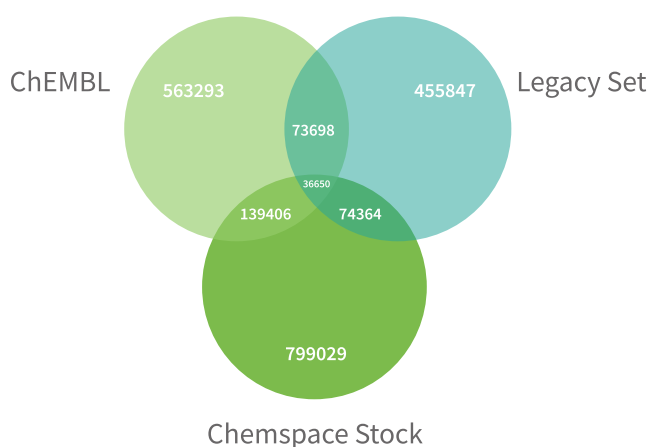

Screening compound collections have been extensively utilized in early-stage drug discovery playing an important role in the success of this process. Exceptional circumstances require extraordinary solutions and chemical suppliers from Ukraine do not stand aside!

Chemspace offers a unique Screening Library from two Ukrainian suppliers:

Enamine - the world's leading designer and supplier of screening compound libraries and building blocks

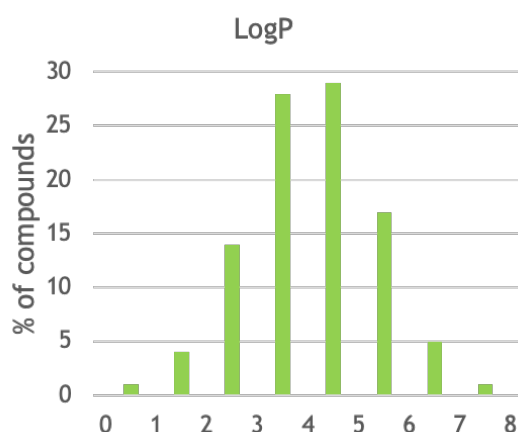

UORSY - a top Ukrainian chemical company producing products for early drug discovery.

The "Legacy" Screening Library now counts 1.76M in-stock compounds, that 44% more than the previous version.

Physicochemical Properties and Quality of the Library

- 51.3% drug-like compounds
- 44.4% lead-like compounds
- 11.2% shaped molecules (9.3% disc & 1.9% sphere)
- 4.9% high QED (QED=0.9)
- 3.7% PAINS
- 2.7% fragment-like compounds
- 0.8% natural-like compounds

We offer flexible purchasing options to suit your needs: "One-Time purchase" and an "Open Order purchase" for fixed pricing over a year. This way, you can plan your budget with confidence, knowing that Chemspace is committed to providing these compounds at a consistent price.
