  Customer satisfaction survey

COMPOUND MANAGEMENT

DATA MANAGEMENT

Personalized Support
Real-Time Inventory Tracking
Automated Order Processing
User Access Control
Compatibility with Lab
Systems

REFORMATTING

Reweighing, relabeling, dissolution
Automated multi-format plating and reformatting
Using wide range of labware on customer's demand
Dose response curve (DRC)
Cherry-picking

QUALITY CONTROL

Verification of Incoming Compounds
Barcode & Database Entry
Spectral data (LC/MS, HRMS,NMR)
Regular Retesting & Stability Checks
Validate labeling accuracy

SDS TOOL

Assigning process of compound passport
Assigning HTS code for all compounds
Transport class assignment to all compounds
Customizable SDS

LOGISTIC & SHIPPING

Shipments with ice pack or dry ice
Customs clearance support
Multiple shipments to different sites
Consolidated shipment and dropship
Worldwide delivery couriers

Focus on your reserach while we will handle the rest!

Customizable purchasing platform - in just 80 days

Save your time and money

Take full responsibility for manually recources
